Enhance your image with a great washroom experience

If you work hard to make the right impression on your guests, your washrooms should do the same. And in a busy working environment, the last thing you need is washroom hassle. Everything has to run smoothly, efficiently and with minimum maintenance. So we designed a complete line of dispensers to fit with your style and give your guests a great experience.

Trust Image Design to keep your washrooms running smoothly and your image sharp.

The art of standing out by blending in

Of course, you want your interior design to reflect the image and style of your business. Every part of the guest experience should contribute to a flawless impression. This means dispensers should blend seamlessly into your washroom design. But they should also be outstanding examples of form and function.

For this reason, each Image Design dispenser has a gently brushed stainless steel body, fine lines and subtle curves. The design language is discrete yet bold. Performance is sophisticated yet simple. This way your guests experience nothing but your best.

The window on the side of the dispenser simplifies the task of keeping the washroom stocked and running smoothly. It's also a reassuring little touch for the guest.

Clean lines, smooth surfaces and anti-fingerprint protection help to maintain a first class impression.

Softer, thicker, quick-drying towels and other premium refills are all part of the guest experience.

One form with many functions

The touch-free, fully automatic dispensers are ideal for washrooms that demand optimal hygiene or simply a more sophisticated touch. There's also a manual soap dispenser that's easy to use (left). For a sophisticated and elegant fragrance, ask about the new Tork Luxury Foam Soap.

The Tork Coat Hook shows a little extra consideration. And because it's part of the Image Design line, it fits in perfectly.

To further enhance the washroom experience, try adding one of the countertop dispensers. The Facial Tissue Dispenser adds an exclusive touch, while the hand towel dispenser brings towels closer to the user for a more personal experience.

Extra-slim design is both space-saving and elegant. These three items can be trusted to keep almost any washroom clean, tidy and running smoothly.
